

ILC Workshop - ECFA and GDE Joint Meeting

Wednesday, 8 November 2006

Polarization: I - ADEIT - 0.1 (14:30 - 16:00)

time	[id] title	presenter
14:30	[130] Performance of 14mrad Extraction Line Polarimeter at 500 GeV and 1 TeV cms Collision Energy	MOFFEIT, Ken
14:45	[131] Development and Prototyping of a Cerenkov Detector for High Energy Polarimetry at the ILC	LIST, Jenny
15:00	[132] Radiation and target aspects	USHAKOV, Andriy
15:20	[134] Physics news and open questions	MOORTGAT-PICK, Gudrid
15:35	[135] Discussion (chaired by Jim Clarke and Sabine Riemann)	

Thursday, 9 November 2006

Polarization: II - ADEIT - 0.1 (17:00 - 18:40)

time	[id] title	presenter
17:00	[136] Polarization in GEANT 4	SCHAELICKE, Andreas
17:15	[137] Status and results @ E166	REINHERZ-ARONIS, Erez
17:35	[139] Identifying contactlike effective interactions at polarized ILC	PAVER, Nello
17:55	[140] Polarization aspects in radiative neutralino production	KITTEL, Olaf
18:10	[141] Discussion (chaired by Jim Clarke and Sabine Riemann)
