

ILC Workshop - ECFA and GDE Joint Meeting

Wednesday, 8 November 2006

G-G physics: I - ADEIT - 0.1 (11:15 - 13:00)

Thursday, 9 November 2006

G-G physics: II - ADEIT - 1.1 (11:15 - 13:00)

time	[id] title	presenter
11:15	[169] A FORTRAN code for gamma+gamma->ZZ in SM and MSSM	GOUNARIS, George
11:35	[171] Charge asymmetry in gamma+gamma->mu+mu+neutrinos with polarized photons. New results.	GINZBURG, Ilya
11:55	[172] From LHC to ILC: how to estimate the hadronic total cross-section from gamma-gamma interactions	PANCHERI, Giulia
12:15	[173] Heavy neutral MSSM higgses - comparison of two analyses	NIEZURAWSKI, Piotr
12:35	[235] First results on H and A production with linear photon polarization	ZARNECKI, Aleksander Filip
