

Closing remark

Weiguo Li, IHEP

9th ACFA workshop and GDE Meeting

Feb. 7, 2007

IHEP, Beijing

Missions Accomplished

Talks and photos will be on web

- Status reported,
- Information exchanged
- Progresses in RDR and DCR made
- Plan/roadmap discussed

Big help for Chinese HEP community in planning our participations in ILC R&D activities.

It will be a important milestone moment to announce the Costing of ILC tomorrow to the Press medium.

Personnel View

NOW: RDR/DCR are public, will be finished soon,

Critical issues are identified, such as

cavity Production in machine side;

PFA in physics/detector studies, etc.

People asked what is the sign ILC will be built?

Near Future:

- Significant R&D fund needed to solve these problems in timely fashion.**

Final Decision,

➤ **Governments make bidding to host ILC**

need inputs: scientific values (relating also to LHC findings);

technical issues (EDR);

costing (Overall costing/ sharing among governments)

Likely to be an evolving process.

We physicists and engineers should work together following the agreed plan, and provide the credible answers at the right times.

Below some slides from Hitochi Yamamoto and Ties Behnke

ILC Physics/Detector workshops

2006

Feb: Bangalore (Asia: **International**)

July: Vancouver (N.America: regional)

Nov: Valencia (Europe: regional)

2007

Feb: Beijing (Asia: regional)

Beijing WWSOC meeting:

Every year:

Spring: Asia

Summer: Europe

Fall: N.America

Every 4th: **International**

Future ILC Physics/Detector workshops:

A detector review meeting attached to each workshop

2007

June: Hamburg (Europe: **International**)

Calorimeter review

Oct: Fermilab (N.America: regional)

Vertexing review

2008

Spring: in Japan (Asia: regional)

**Misc sub-detectors review (PID, Muon, Solenoid,
Beam instrumentations, DAQ, etc)**

International Linear Collider Workshop **LCWS 2007** **ILC-GDE**

DESY, Hamburg, May 30 – June 3, 2007

International Program Committee

Ties Behnke (DESY)
Jim Brau (Oregon)
Brian Foster (Oxford)
Francois Richard (LAL Orsay)
Georg Weiglein (Durham)
Hitoshi Yamamoto (Tohoku)
NN
NN

Local Organisation Committee

Ties Behnke (DESY, Chair)
Karsten Buesser (DESY)
Eckhard Elsen (DESY)
Manfred Fleische (DESY)
Anane Frey (MPI Munich)
Bernd Kniehl (Uni Hamburg)
Sabine Riemann (DESY)
Nicolas Walker (DESY)

Secretariat

Iris Kerkhoff
Ramona Matthes

HELMHOLTZ
GEMEINSCHAFT

LCWS 2007

Combined meeting of **LCWS** (physics and detector community)

ILC (accelerator community)

Will take place at the
DESY research Campus in Hamburg, Germany

May 30-June 3, 2007

Similar format to the 2006 LCWS in Bangalore

lcws07.desy.de

Web page for the conference: <http://lcws07.desy.de>

contact: email to lcws07@desy.de

Tel [+49 40 8998 2800](tel:+494089982800)

Registration for the conference
has been opened a few days ago:

please go and register at the WEB page
<http://lcws07.desy.de>

We are looking forward to see you in Hamburg in May/ June 2007

Thanks for all the people who contributed to
this workshop and GDE meeting,

Speakers and Participants;

The Committee Members;

The session conveners;

The secretaries and the supporting Team.

I would like to express special thanks to

Tongzhou Xu, Tiejun Deng, Dezhan Niu, Jinjun Zhang,
Shan Liu, Shaopeng Chi and

Computer Center staff from IHEP,

Maxine Hronek from GDE/Fermilab

for their dedicated work

About the Acrobat

For those staying at Holiday Inn,

Bus is waiting downstairs, go to Holiday inn,

food boxes and tickets distributed at the lobby,

At 17:50, buses leave Holiday Inn for the Acrobat Theatre

For those staying at IHEP Guest House,

food boxes and tickets distributed in the lobby of Guest

house,

At 17:50, buses leave Guest House for the Acrobat Theatre

Tomorrow's buses scheduled are
directly to airport, you have to find
your own transportation if these do not
fit your flight time

Hope everybody
a present stay in Beijing
And a safe trip back to home
