Possible FONT installation schedule /ATF2

- **December 2007: finalise lattice locations for ATF2 system**

- **March 2008: finalise kicker/BPM details**

- **Summer 2008: components ready for installation**

- **Suggestion for discussion:**

  1) install 2 kickers for (y, y') FB

  - beam experience

  2) add second pair of kickers + 1 BPM for (x, x') FB

  - beam experience

  3) incorporate DR -> extr FF into installed FB hardware
