

IRENG'07**Tuesday, 18 September 2007****Parallel Wg D - ROB #2 (13:30 - 16:00)**

time	[id] title	presenter
13:30	[35] Neutron and photon backscattering from the Beam dump	Dr MARUYAMA, Takashi
13:50	[36] Synchrotron photons in ILC IR and PEP-II	SULLIVAN, Michael
14:10	[37] Study of collimation depths for different L* designs	JACKSON, Frank
14:30	[38] Studies at SLAC's ESA of the transverse kicks due to collimator wakefields	Mr MOLLOY, Stephen
14:50	[39] 2mad scheme IR region and extraction line	Dr APPLEBY, Rob
15:10	[41] Overview of extraction line designs and all issues	NOSCHKOV, Yuri
15:30	[40] Backscattering of photons into the ILC Detectors from Beam Losses Along the Extraction Lines	Dr DADOUN, olivier
