Funding history

- **2005: start of reporting**
- **2006 reporting: received all EUROTeV funds for CNRS**
- **2007: did not receive a single Euro from EUROTeV**
- **2008 ?**

CNRS implicated in WP5 DIAG (mainly HEPOL task) , WP6 ILPS (mainly BBSIM task) and WP7 METSTB (mainly MSTBT task) with deliverables at the end of the project.

People have continued to work on the subject through EUROTeV contracts and “local” personnel in 2007 and 2008 bringing the deliverables to completion.
