# Scope

- AAP charge: “Readiness in 2012”
- Critical R&D items:
  - **Where we are**
  - **Where we will be TDP-1**
  - **How this influences 2012 goals**
- Design aspects: “re-baseline”
  - **Alternative configurations -> new baseline 2012**
  - **(Obviously includes MM elements)**
- Talks are short and will have to be strict
  - **Use web material to provide more detail on critical items**
- Deadline for draft presentations: **Friday 5.04**

# Parallel Sessions

- Time to prepare parallel meetings / working-groups
- Must be arranged not to conflict with AAP review
  - **Several constraints for AS related parallel groups**
- Need to know how much parallel time you foresee:
  - **e+e- sources** ~1 day (Jim)
  - **DR** ~1/2 day (Susanna)
  - **RTML** ?
  - **BDS** ? (1/2 day D&P)
  - **Simulations** ?
- Special “ILC design/integration” session
  - **Saturday 16:30 -19:00 (minimum overlap)**
  - **Ewan/Nick to convene**
  - **(Minimum Machine elements)**

## Charge / Goals from PMs

- Currently being drafted → Next Week
- Important (AS) points:
  - **Critical R&D progress / status**
  - **Design & Integration (incl. MM)**
    - ⇒ planning for new baseline 2010
    - Begin / continue discussions (dialog) with community
    - Make plans for follow up meetings (see later)
    - Understand what needs to be done to propose/defend new baseline proposal (end 2009)

# Towards Baseline Proposal

- Who will make the baseline proposal?
  - TAG leaders (plus additional members from MM group)
  - PM office / Integration Scientist
  - Lead by PMs
- Time scale
  - TILC09 continue discussions and make concrete short-term plans
  - Special meeting: SLAC 11-12 May (TBC)
    - This group. Discuss ILC baseline design
  - ALCPG (Albuquerque) 28.09 – 03.10
    - No review!! Focus on GDE working groups
- Current philosophy:
  - TDP PM “Team” works out and proposes baseline proposal
  - End 2009
  - Early 2010 – Review with broader community / EC / AAP
    - Plus external
  - Revise / iterate new baseline -> Freeze for TDP-2 work.
