

CERN and AIDA WP9, task 9.5

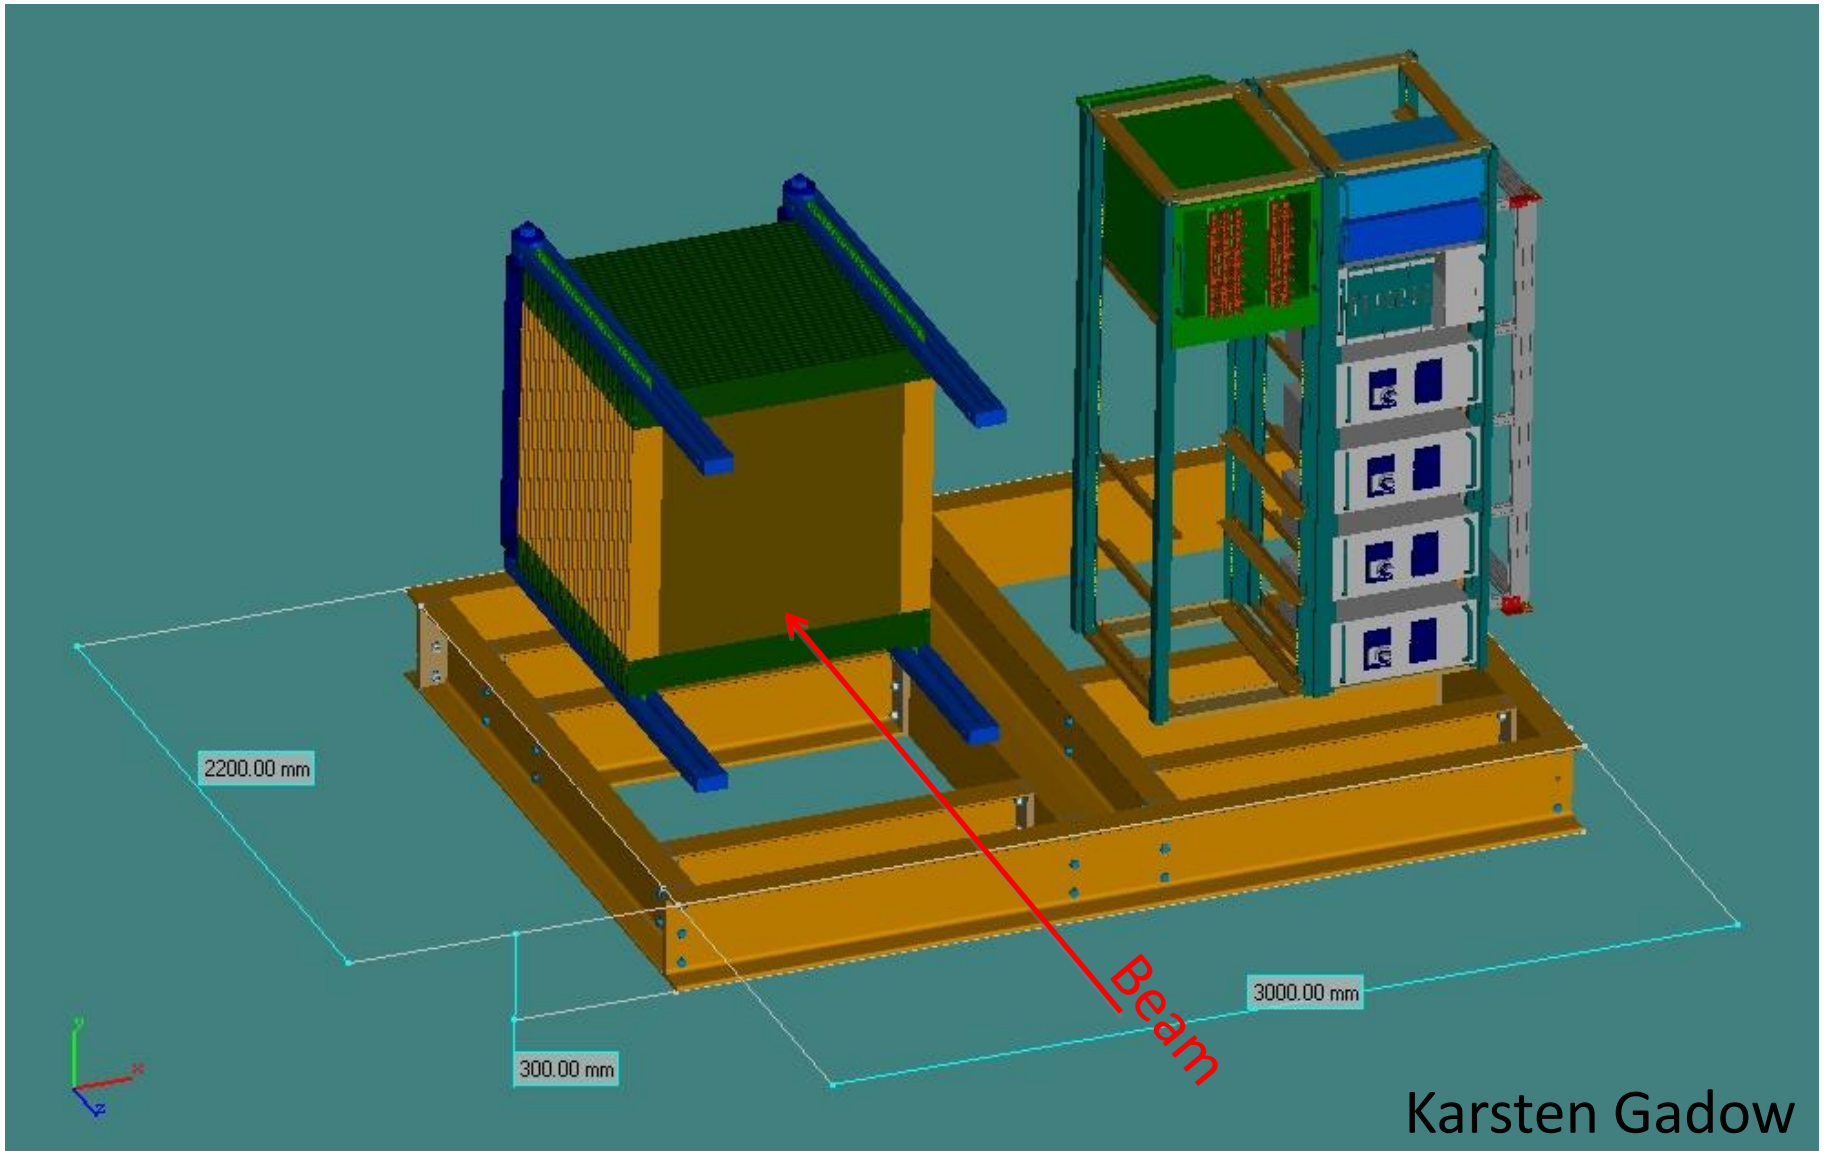

K. Elsener, on behalf of L. Linssen

Meeting held at DESY, 6 July 2010

Item 1

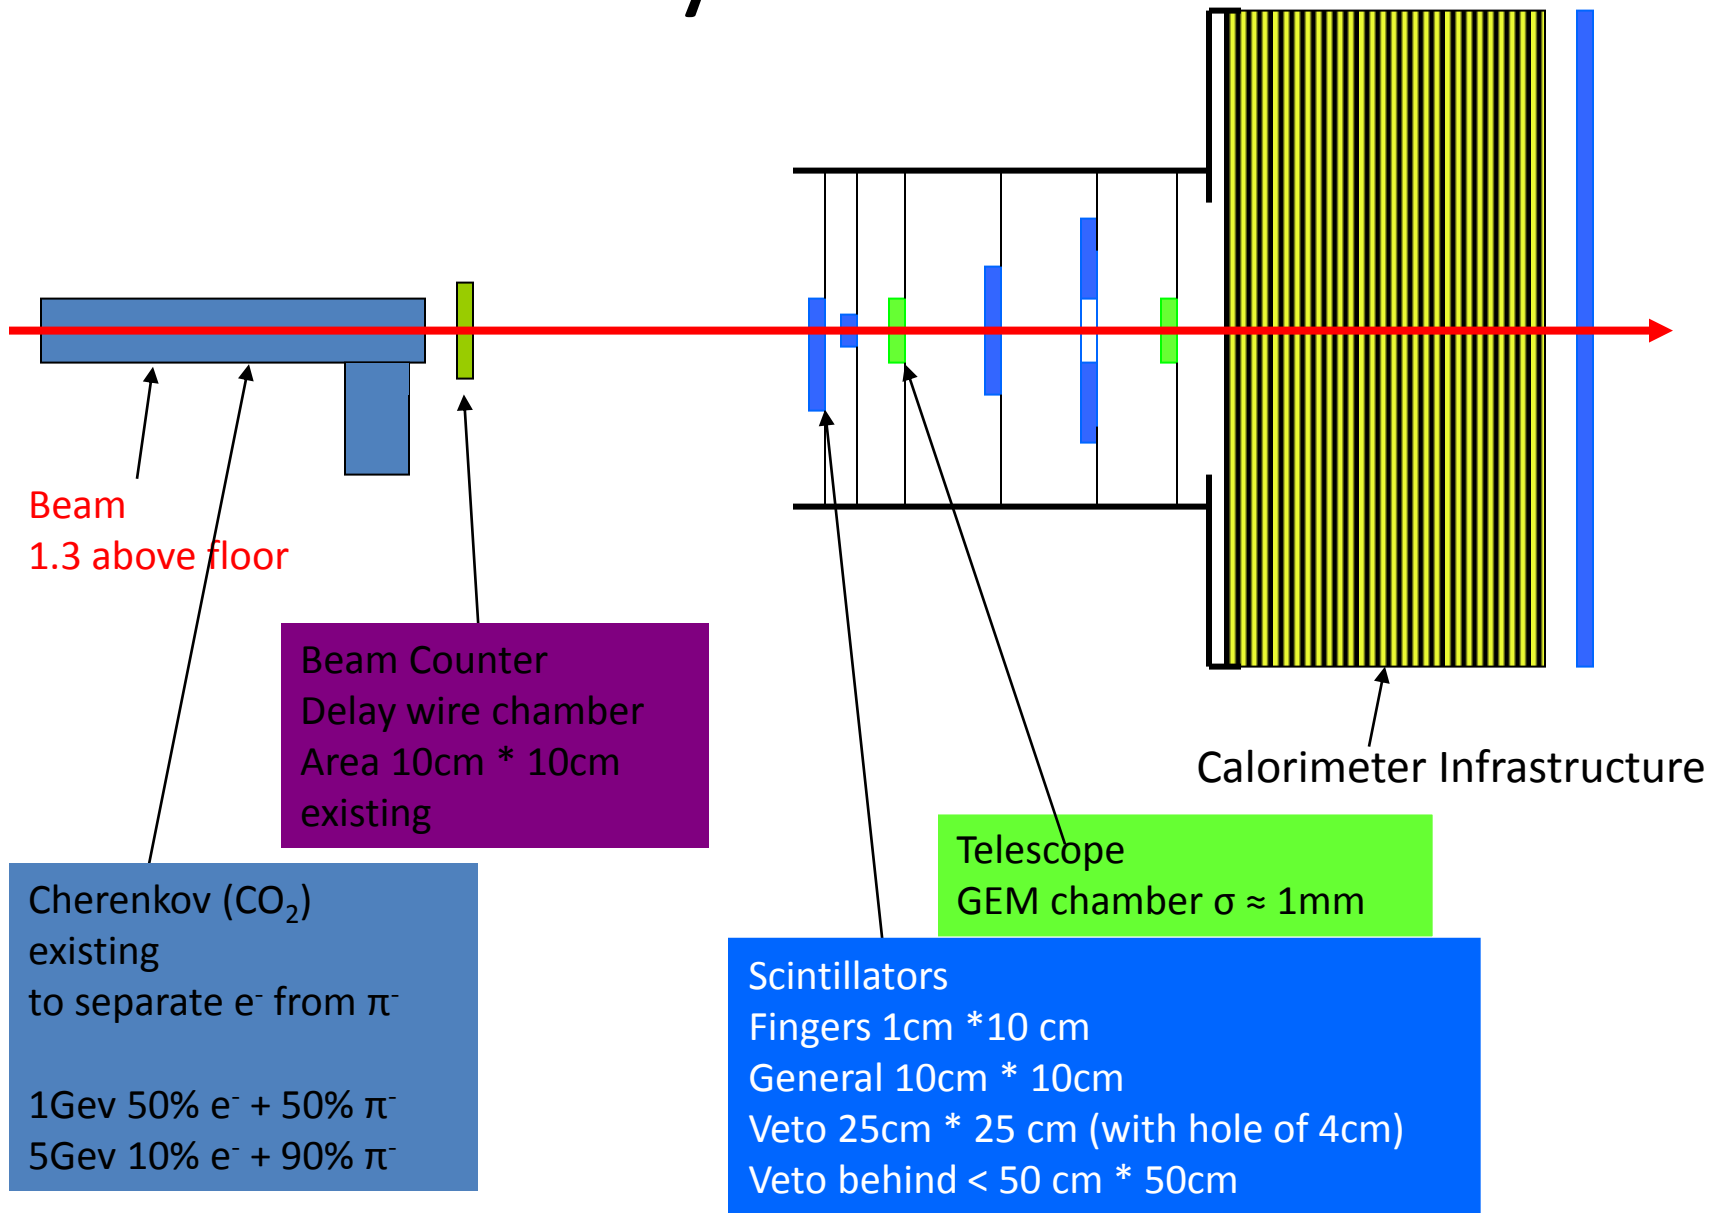

- CERN will contribute to the mechanical infrastructure for testing highly granular hadron calorimeters

Hcal Test Infrastructure

Karsten Gadow

Auxiliary Infrastructure

Item 2

- CERN plans to contribute to the test infrastructure to assess the optical performance of scintillators for calorimetry (fast, high-light yield, large-scale manufacturability, optimal matching with the SiPM readout)
