

# 2nd Linear Collider Testbeam **Workshop**

Follow up ....  
Workshop Document

Roman Pöschl  
LAL Orsay

LCTW 2009 4<sup>th</sup> Follow up meeting 24/8/2010

# Workshop Document

- Current status:

33 pages

**Executive Summary** - Complete but surely matter of discussion

Review Section – Complete but matter of discussion

Calo Section - Complete (Muons under revision)

TPC Section - Complete

Si/Vtx Section – Complete

Daq Section - Complete

Soft Section – Complete

Sites Section – Complete (see later)

Infra Section – Complete

**Conclusion** - Complete

**Feedback by Matthew: Draft still somewhat rough (good suggestions how to improve)**

## The next steps ...

- New draft for 27/8/2010
- Aim for publication 1/9/2010
  - Looks realistic
  - To be sent to
    - LC Management
    - Testbeam sites (CERN, DESY, FNAL, KEK, ...)
  - LC Note
  - arxiv paper after approval as LC-Note
  - Publication ID of your institute?
- Need final contributions until ~26/8/2010!!!
