

International Workshop on Future Linear Colliders

Tuesday, 27 September 2011

AWG8 - Seminario 4 (08:30 - 10:30)

time	[id] title	presenter
09:00	[205] CLIC instrumentation, from CDR to TDR	SOBY, Lars
09:30	[206] Imaging techniques of relativistic beams: Issues and limitations	Mr WENDT, Manfred
10:00	[207] CTF3 screen development	BOLZON, Benoit

AWG8 - Seminario 4 (11:00 - 13:30)

time	[id] title	presenter
11:00	[211] Acquisition system for CLIC modules	VILALTE, Sebastien
11:30	[209] First thoughts on the CTF3/CLIC control system	DRAPER, Mick
12:00	[210] Beam loss monitoring for CLIC	MALLOWS, Sophie

Wednesday, 28 September 2011

AWG8 - Seminario 4 (08:30 - 10:30)

time	[id] title	presenter
08:30	[321] Status of the CLIC module R&D	RIDDONE, Germana
09:00	[322] Update on the CLIC vacuum system	GARION, Cedric
09:30	[323] Status on MBQ and DBQ prototypes procurement	MODENA, Michele
10:00	[324] Development and qualification of cam movers for the micrometric re-adjustment of CLIC Main Beam quadrupoles	MAINAUD DURAND, Helene
