... for details
see information sheet ...

RUPRECHT-KARLS-UNIVERSITÄT HEIDELBERG

KIRCHHOFF-
INSTITUT
FÜR PHYSIK

UNIVERSITÄTS-
RECHENZENTRUM

Wireless Web Access

How to connect:

- Choose the SSID '**UNI-WEBACCESS**'.
- Leave all other parameters as default including the security mechanism as open/no-encryption.
- You will be assigned a TCP/IP address from our DHCP server, provided your network settings are set to 'Obtain an IP address automatically' (which is the default).
- Finally connect to the internet through a Web Browser (e.g. InternetExplorer, Firefox, Opera, Safari or other) and just call one site as you like.
- You will be redirected to our login site (pop-up and javascript has to be enabled for this site).
- If you receive an SSL Certificate error message, you should update your browser or install the root certificate "**Deutsche Telekom Root CA 2**" (you will find the download link on our login site).
- After logging in with the user-id and password provided below, you can use all those ports and protocols which we usually offer for a "conference network" (see http://www.urz.uni-heidelberg.de/netz/laptop/tagungen_anl.html)

Web-Authentisierung / web-authentication

Uni-ID/URZ-Nutzerkennung / user-id:

kip01

Kennwort / password:

summer

Important Note:

No security measures (i.e. encryption, firewalling, etc.) have been enabled. We highly recommend that you take all appropriate steps: e.g. do not share personal or system files and use a personal firewall.

Please keep in mind that there is a possibility of unencrypted communication being intercepted by others on the Hot Spot unless protocols such as SSL (HTTPS) or a VPN are used to protect information and passwords.

Registration and Payment ...

Registration ...

[at the registration desk in the main foyer]

Wednesday 8:30 – 9:00

10:15 – 10:45
