

Workshop  
SLAC

January 12-14, 2015

# Welcome!

- ★ First SiD Workshop after the results of the P5 process
- ★ Significant progress for the ILC project in Japan
- ★ A difficult time in the U.S. – but still work goes on!
- ★ A transition time for SiD while we wait for Japanese decision

# Workshop features

- ★ **ILC status** from Akira Yamamoto – who is deeply involved in discussions on the ILC project in Japan
- ★ A report on “Physics and Detectors” at the LCC from Hitoshi Yamamoto.
- ★ A **critical review** of SiD – by Felix Sefkow
- ★ Focus on the **Hadron Calorimeter**
- ★ Half-day joint session with **MDI/CFS**
- ★ SiD **Baseline** discussion
- ★ **Institutional Board** meeting

# We welcome:

- ★ Your input on the SiD detector design
- ★ Your comments/opinions on SiD and the ILC project
- ★ Your input on the path towards a SiD Technical Design Report
- ★ Your thoughts on expanding/developing the SiD Consortium
