

closing

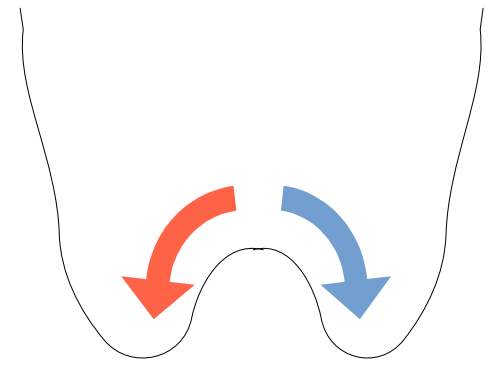

ILC project seems in state of flux,
perhaps at a phase transition
→ messages from MEXT review
→ ICFA will soon report its view

IPNS director Saito-san:
reorganise IPNS / ILC, ATLAS → HEF
reinvigorate the community in JP?

Kawagoe-san:
ILD → strategy to also look beyond ILC?

picture hopefully clearer over next 6~12 months

nice progress from sub-system developments

ILC detector R&D has long history in Japan (and elsewhere)
JLC, GLC, GLD, ILD, ...

current ideas for detectors “stand on the shoulders of giants”

Isaac Newton

- we owe a debt of gratitude to those who showed us the way
- don't forget the lessons we have learned
- don't throw away the tools we have developed

at the same time we must keep our eyes fresh,
to think “outside the box”

- * new ideas
- * new technologies
- * new tools
- * new collaborations

→ **let's go!**

maximum ~30 people ; these made it all the way to the end!
