

ILC-ECFA Workshop 2008

Tuesday, 10 June 2008

4.yy - room C (14:00 - 15:30)

time	[id] title	presenter
14:00	[155] Implementation of some gg and eg processes at one loop within multi-channel approach of SANC system	DMITRY BARDIN AND LIDIA KALINOVSKAYA
14:20	[156] QCD issues in photon-photon total cross-section : why we need a photon collider	GIULIA PANCHERI
14:50	[157] Preliminary results on large angle high energy photons for discovery of New Physics at LHC, ILC, etc.	ILYA GINZBURG
15:20	[170] Discussion
